

# Project Report

## 1.INTRODUCTION:

### 1.1 Overview

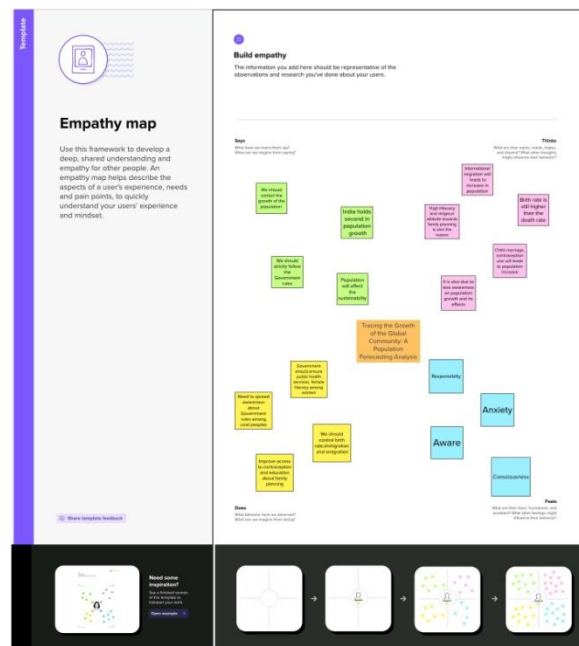

Population growth is the increase in the number of people in a population or dispersed group.

### 1.2 Purpose

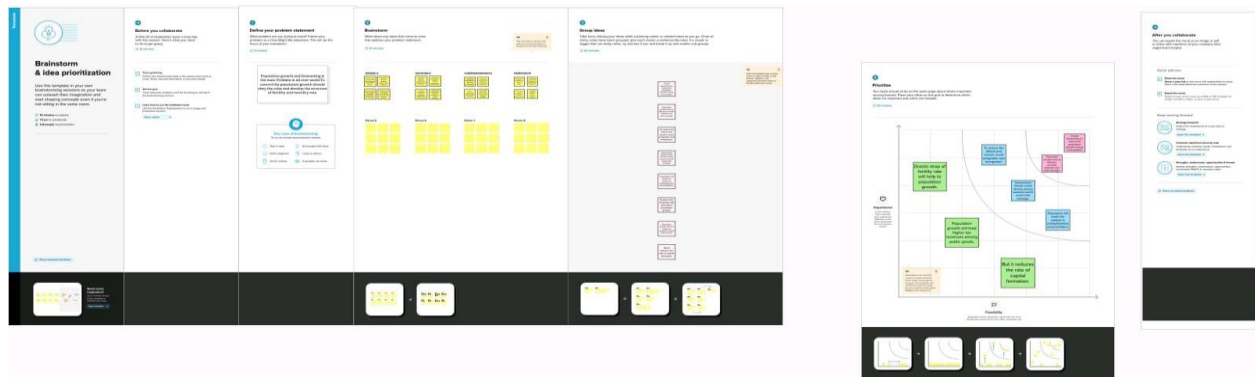

Increasing Growth of population is the main and crucial issue. The ultimate goal is to reduce the population by Strict Government rules and create Awareness.

## 2. Problem Definition & Design Thinking:

### 2.1 Empathy Map

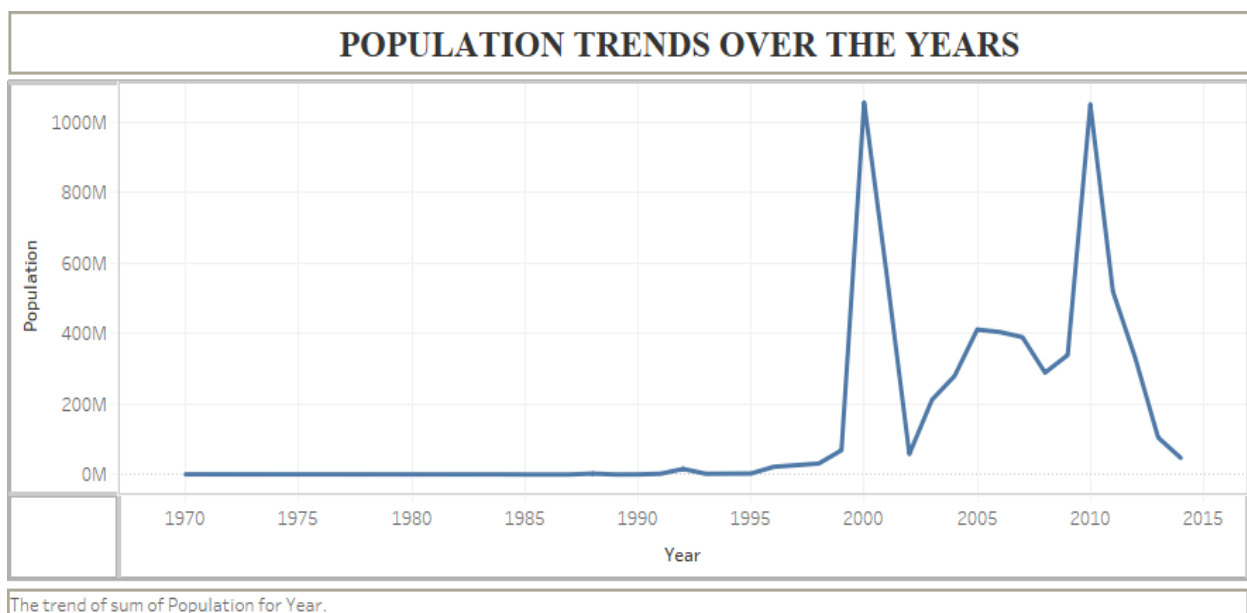

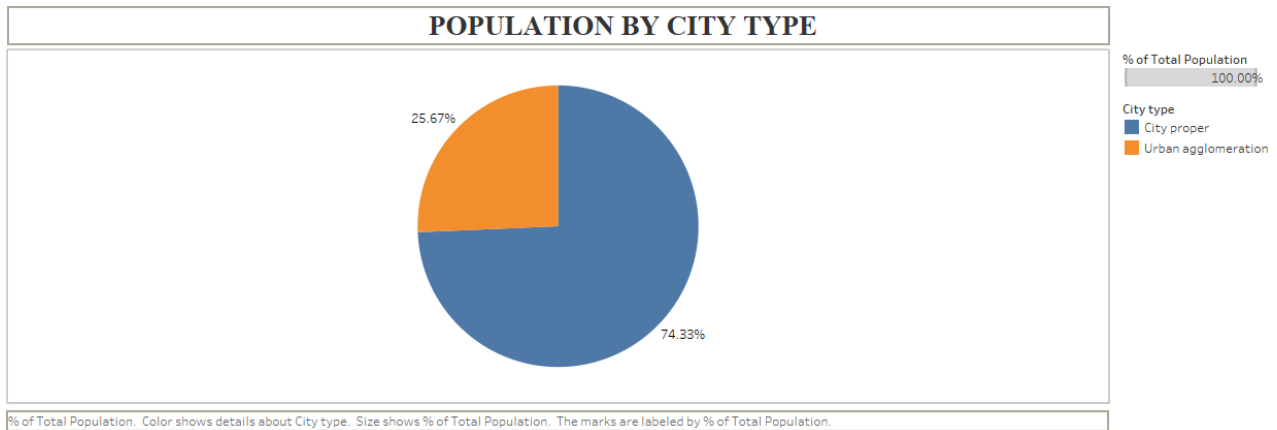

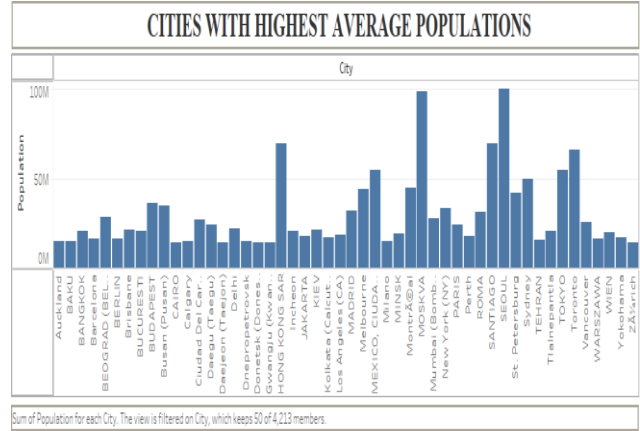

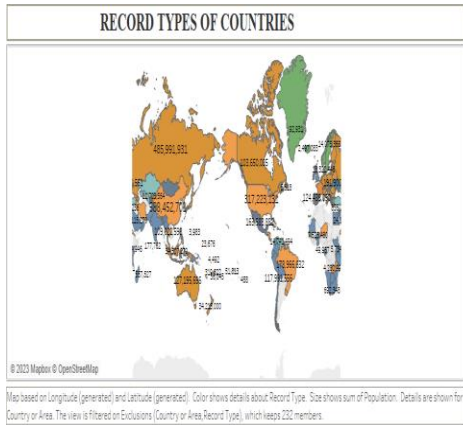

## 2.2 Ideation & Brainstorming Map

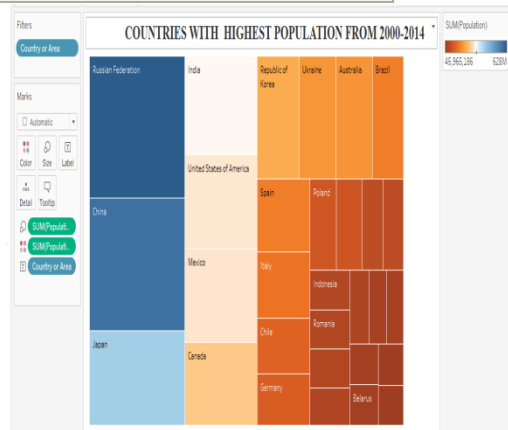

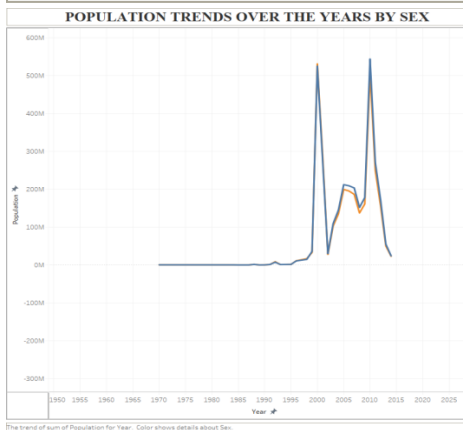

## 3.RESULT:

- Data sets are collected and stored in MYSQL and merged with the tableau software.
- Typically, the findings of an Population growth are published in a Tableau public that may include recommendations that the relevant authorities or industry organizations may implement

% of Total Population. Color shows details about City type. Size shows % of Total Population. The marks are labeled by % of Total Population.

## **4 .ADVANTAGES & DISADVANTAGES:**

### **Advantages**

- Decreasing population growth will help everyone to get a job.
- Slower population growth will help the girls and women the opportunity to pursue education and successive career.
- Decreasing population growth place a higher value on immigration.
- It will also help us to increase economic growth, Gender equality for education and employment.

### **Disadvantages**

- A rise in the dependency ratio which would increase the economic pressure on the workforce.
- A crisis in end-of-life care for the elderly because there are insufficient caregivers for them.
- A falling population also lowers the rate of innovation, since change tends to come from younger workers and entrepreneurs.
- lower the military age population, and therefore military power. Decline in innovation.

## **5.APPLICATION:**

- Creating Awareness among rural peoples.
- Government Should Strictly declare the Rules.
- Education among the people's about the effects of increasing population growth.

## **6.CONCLUSION:**

The published dash board and relevent stories of the population growth in the webpage helps to improve the world's economic growth in the future .

## **7.FUTURE SCOPE:**

- If everyone follows the proper guidelines of Government,we can save our earth from Endanger.
- Decrease in population will leads to better Economy.
- It also helps to save natural resources to our upcoming generation.
